Agenda:

1. Preparation of the Questionnaire
2. Discussed about the procedure of survey.
3. Getting survey from people.
4. Consolidated opinion.

Proceedings:

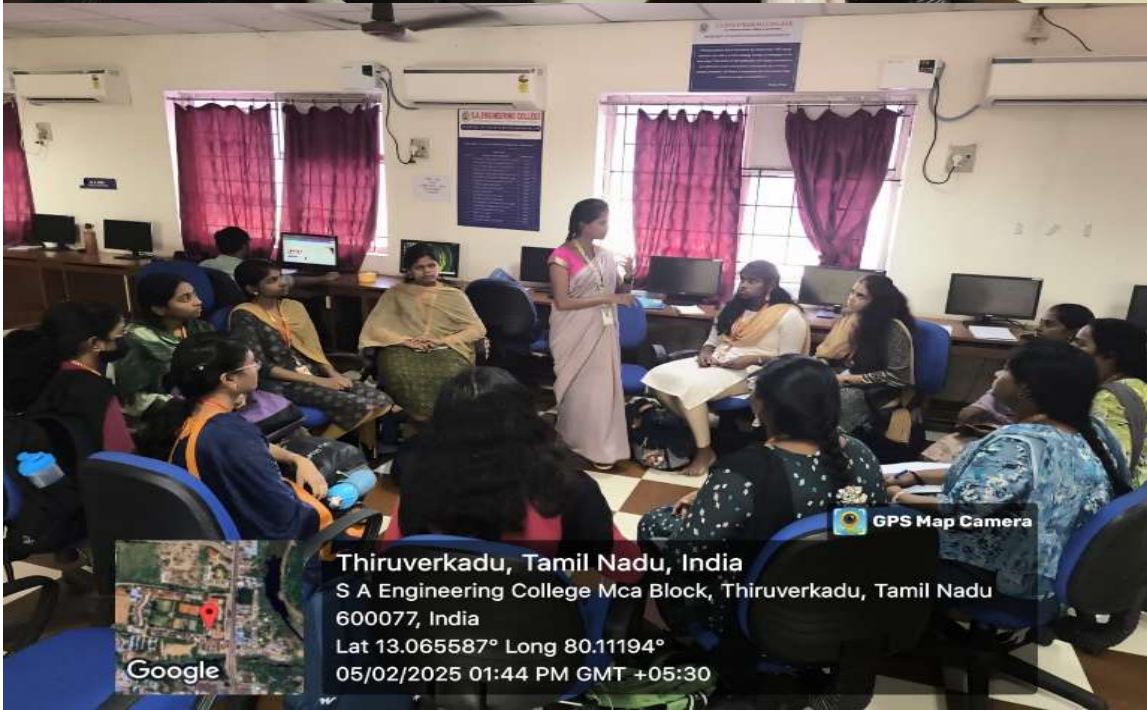

The Women Empowerment meeting focused on gathering valuable insights to improve gender equality within the organization. The students began by preparing a comprehensive questionnaire aimed at collecting employee (Teaching, Non-teaching and Maintenance staff) feedback on areas such as leadership opportunities, challenges faced by women in work place, and overall empowerment.

The procedure for distributing the survey was discussed, it was decided that the questionnaire would be conducted through oral communication to encourage open and honest conversations. Strategies to encourage responses, including reminders and incentives, were also reviewed. After gathering the survey data, the team consolidated the feedback to identify key trends and areas for improvement, which will inform future initiatives to promote women's empowerment in the workplace.
